

The Relentless Fight Against COVID-19

From the beginning of the global COVID-19 pandemic, Pfizer and BioNTech have been relentless in our mission to fight this deadly disease. As we continue to achieve critical milestones with our COVID-19 vaccine, we thank the colleagues and researchers, as well as clinical trial partners, participants, and their families, who have made each of these significant moments possible.

First

authorization in the world for emergency use in ages 16+ (December 2020)

First

authorization in the world for emergency use in ages 12-15 (May 2021)

First full U.S. FDA approval for ages 16+ (August 2021)

First U.S. FDA emergency use authorization of a COVID-19 vaccine booster dose for ages 65+ and individuals 18-64 within certain high-risk groups (September 2021)

1.7 billion+ doses distributed globally*

144 countries and territories reached*

3 billion doses expected to be produced in 2021 and **4 billion doses** in 2022

2 billion doses committed to low- and middle-income countries in 2021 and 2022

We will continue to address the evolving needs of this pandemic and work to help protect more lives around the world in the weeks and months ahead by:

- ▶ Seeking additional global approvals and authorizations of a booster dose of the vaccine for individuals 16+
- ▶ Sharing further results from our pediatric clinical trial program
- ▶ Seeking global approvals and authorizations of the vaccine for pediatric and adolescent populations

Emergency uses of the vaccine have not been approved or licensed by FDA, but have been authorized by FDA, under an Emergency Use Authorization (EUA) to prevent Coronavirus Disease 2019 (COVID-19) in individuals 12 years of age and older. The emergency uses are only authorized for the duration of the declaration that circumstances exist justifying the authorization of emergency use of the medical product under Section 564(b)(1) of the FD&C Act unless the declaration is terminated or authorization revoked sooner. Please see EUA Fact Sheet at www.cvdvaccine-us.com
